Drivers for Amazon Flex can wind up earning less than they realize Contractors working for the Amazon Flex program load packages into vehicles to d eliver to customers in San Francisco. (David Paul Morris / Bloomberg) The program lets anyone sign up to shuttle packages for the world's largest online store using their own cars and get paid by the delivery. But first, they need to score some actual work.

Two drivers say their pay fell within that range. Seven others who spoke to Bloo mberg say they never bothered to do the math.

Amazon suggests it leaves drivers plenty of time to complete their routes safely

. The company says more than half of Flex workers finish their assignments with at least an hour to spare, including those who need to return undelivered packag es to the station.

" It pays so well, and I don' t have to deal with passengers, " says the 49-year-old. " Packages don' t talk back. They don' t ask you to c hange the radio station. They don't mess up your car." When the Flex app finally returns job offers, Karunungan has to ignore some of t

hem because the destinations are too far away or set at inconvenient times. He r efers to this exercise as "fishing."

The acquisition of Whole Foods last year for \$13.7 billion gave Amazon more than 470 additional stores from which it can stow, package and deliver goods to onli ne shoppers. It has already begun to leverage parts of that logistics opportunit y this year.

A set of two reusable silicone baking mats that \$\#39; \text{II help you bake treats and} save you some money while you're cooking up a batch of treats at home. They are easy to clean and they do not absorb water as they can be easily clean ed by hand.

It has been about four months now and I have used it for four containers.

I'm planning to keep it at my home office as well.

A set of two oven liners to keep your oven clean and toasty.

[Image] Promising review: " I bought these liners for my oven and they ar

e great! I use them for all of my baked goods and the liner keeps them from stic

I would highly recommend these liners.

I'm always looking for something durable, easy to clean. Sure Betting: The Secret to Making Profits in Sports Betting

Sure bets are basically played by placing bets with several bookmakers who give

different odds on the different outcomes of a game. The accessibility of the bookies is usually 99% perfect, but please as I mentio

ned above, 100% does not exist. In order to be able to react quickly, a portfolio of several bookmakers is esse ntial, what use is the nicest sure bet if you do not have an account with the bo

okmaker yet. In addition, due to rapid changes in the odds of the bookmakers, if a sure bett ing opportunity is actually on the market, it is always advisable to place the b
